

Tim Blake

Digital 3D Artist

Modeling

Texturing

Date of Birth: 01 July 1992

Nationality: British

Personal Statement

I'm an experienced 3D artist with a keen eye for detail. I have honed my skills, working with talented artists on a number of large-scale projects. Learning from different workflows, approaches and keeping up to date with current trends and technology are some of the ways I try to better myself at my craft.

Working in different countries has allowed me to focus on my interpersonal skills and communication, which has been imperative to my growth as an artist and working in a fast-paced industry, where the flow of information is critical.

I'm always trying to learn more, to give myself an informed view of the process. Something I like to support, through personal artwork.

Professional Experience

January 2018 - Present - Freelance 3D Artist

November 2015 - November 2017 - Rodeo FX (Montreal, Canada)
[Modeling TD \(+ supporting role in environments\)](#)
